

FieldLink[®] SPE cables (Single Pair Ethernet)

for industrial
communication

INDUSTRIAL
PARTNER
NETWORK

ADVANTAGES

- Performance up to 1 GBit/s at 600 MHz
- Data transmission up to 40 meters (1 GBit/s) and up to 1000 meters (10 MBit/s)
- Suitable for drag chains and torsional applications
- Oil resistant
- Designed for harsh industrial environments
- Support of PoDL (Power over Data Line)
- Various jacket materials available:
PUR, FRNC, PVC, FEP
- UL and CSA / CPR approved

With the new SPE cable family, BizLink offers a solution for every application. According to the IEC 61156-x standard, the product portfolio comprises trailing, torsion and robotic cables as well as special solutions which combine the single pair Ethernet features with various other elements to form hybrid cables.

The BizLink product range includes the two basic types with 22 AWG and 26 AWG conductors. The 22 AWG solution is characterised by particularly good attenuation. The cable with 26 AWG is suitable for applications with small space.
